DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 7, it is unclear as to what constitutes "slot-like".

With respect to claims 5-7, 12, 13 and 17-19, it is unclear as to which openings the recitation "said openings" is referring to. Is it referring to the openings in the shrouding cover or the openings in the cover elements?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3654

Claims 1-3, 10-15 and 17-21 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 1,671,435 to McKissick.

McKissick discloses at least one cable roller enclosed by a shrouding cover 16 with entry and exit openings; cover elements 26 in the entry and exit openings, the cover elements having openings 27 for the carrying cable, the openings in the cover elements being smaller than the entry and exit openings in the shrouding cover; wherein the entry and exit openings are slot-like and the cover elements can be shifted with respect to the exit and entry openings.

Allowable Subject Matter

Claims 4-9 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
